**Contact:** Visit website.

**Name:** Doris Duke Conservation Scholars Program @ UW  
**Description:** The Doris Duke Conservation Scholars Program at the University of Washington is a multi-summer, undergraduate experiential learning experience that explores conservation across food, water, climate, and ecosystems of the Pacific Northwest. DDCSP@UW supports emerging conservation leaders to develop unique perspectives and skill sets by drawing connections between conservation, individual and community identities, biodiversity and environmental justice.  
**Important Info:** Doris Duke Conservation Scholars Program will pay for travel, lodging, and provide a separate stipend for food during their 8-week summer experience. Students will be responsible for luggage fees at the airport as well as their own incidentals including toiletries, snacks, souvenirs, and other personal purchases. There are different universities that offer this program.  
**Name:** E2 Energy to Educate  
**Description:** Through the E2 Energy to Educate grant program, Constellation offers students in grades 6-12 and college opportunities to experience problem-solving today’s and tomorrow’s energy challenges. Grant funds support projects designed to enhance students’ understanding of science and technology, and inspire them to think differently about energy  
**Important Info:** Students have to design their own projects.
