### Methodology:

1. Any country deemed 'do not travel' on the Smartraveller List compiled by the Australian Government ([www.smartraveller.gov.au](http://www.smartraveller.gov.au)) remains do not travel.
2. Any country deemed 'reconsider the need to travel' or 'exercise a high degree of caution' has been cross-referenced to the UK FCO travel advice summary page for that specific country, and the US State travel alerts and warnings page for all countries. Then a judgment has been made specific to each country.
3. For countries without Smartraveller Travel Advice, e.g. American Samoa, the FCO webpages and US State Alerts and Warnings have been reviewed and a judgment taken.
