

Protecting Whooping Cranes and Coastal Habitats in Texas

Expedition Packing List

GENERAL

- Expedition Logistics Document
- Your travel plans, rendezvous details, and Earthwatch's emergency contact information
- Photocopies of your passport, flight itinerary, and credit cards in case the originals are lost or stolen; the copies should be packed separately from the original documents
- Passport and/or visa (if necessary)
- Certification of vaccination (if necessary)
- Documentation for travel by minors (if necessary)

CLOTHING/FOOTWEAR FOR FIELDWORK

- Please plan to dress in layers, as temperatures and conditions will be variable throughout the day. Please be aware and understanding that weather is variable and you may not end up using all the equipment and attire you bring with you.
- Lightweight, long-sleeve shirts—to be worn for both sun and mosquito protection (**Required**)
- Short-sleeve shirts to be worn as a base layer (**Required**)
- Lightweight field pants—cotton-nylon blend hiking pants with zip off legs work well (**Required**)
- Midweight non-cotton fleece or sweater for warmth over the base layer (**Recommended**)
- Midweight jacket that offers wind protection and warmth. (**Required**)
- **Do not** bring jeans (they do not dry quickly) and yoga/sweat pants (mosquitoes can bite through them). ***They are not acceptable for fieldwork.***
- Wide brimmed hat for sun protection (**Required**)
- We find that a comfortable pair of sneakers/tennis shoes (hard soled and closed toe) are best for fieldwork. They provide good support and traction in the muddy coastal marsh research sites and can easily be taken off with fieldwork is completed. Hard-soled, tightly fitted dive booties may also be worn (**Required**)
- Socks to be worn in the field—will get wet and muddy (**Required**)
- Mid-calf or higher rubber boots are **not acceptable** for fieldwork as they can over-top with water (leaving volunteer wet) or get stuck on the deeper mud at the research sites
- Packable rain gear—for use on boat (sea-spray) and in the event of rain. These are also handy as a wind break during cold fielding conditions (**Required**)
- Pair of rubber sandals or Crocs to be worn in the field—these are great for putting on at end of day in field when feet are wet and muddy
- Pair of lightweight gloves and a toque for cold morning boat rides (**Required**)

CLOTHING/FOOTWEAR FOR LEISURE

- At least one set of clothing to wear outside in the evenings (we recommend a long sleeve shirt and long pants for warmth and to prevent bites from mosquitoes)
- At least one set of clothing to keep clean for end of expedition
- Pair of light shoes or sandals

FIELD SUPPLIES

- Small daypack or dry bag to keep your personal items together and dry when in the field (**Required**)
- Sunscreen lotion SPF 30+ (**Required**) (We encourage biodegradable reef/fish-friendly products like those from [Stream2Sea](#). Get 10% off with promo code 'Earthwatch')
- Insect repellent (higher Deet concentration results in best mosquito production); oil-based repellent such as Skin-So-Soft by Avon can also be effective against mosquitoes (**Required**)
- Reusable water bottle, wide-mouth Nalgene recommended (**Required**)
- Flashlight with extra batteries and extra bulb
- Sunglasses
- Waterproof case for any cell phone or electronics you plan to take in the field—these items will get wet.
- Binoculars—we will be using binoculars throughout our time in the field. We recommend that you bring your best pair (8x40 or higher magnification is preferred) with you so you are able to get a great view of the wildlife. (**Highly Recommended**)
- Walking poles for stability in the marshes.

BEDDING AND BATHING

- Bed linens, blankets, pillows and bath towels will all be provided.

PERSONAL SUPPLIES

- Personal toiletries (we recommend biodegradable or reef/fish-friendly products like those from [Stream2Sea](#). Get 10% off with promo code 'Earthwatch')
- Antibacterial wipes or lotion (good for cleaning hands while in the field)
- Personal first aid kit (e.g., anti-diarrhea pills, antibiotics, antiseptic, itch-relief, allergy meds, pain reliever, bandages, blister covers, etc.) and medications
- Spending money

OPTIONAL ITEMS

- Comfortable shoes to change into after conducting fieldwork
- Flip flops or sandals for the shower or to wear around the accommodation
- Scarf for time on boat if you are sensitive to windy conditions (high zipping rain jacket can also suffice here)
- Camera, film or memory card(s), extra camera battery
- Hardware for sharing digital photographs at the end of the expedition
- Dry bag or plastic sealable bags (e.g. Ziploc) to protect equipment like cameras from dust, humidity, and water
- Books, games, art supplies, etc. for free time
- Earplugs for light sleepers

Note: Do not bring more luggage than you can carry and handle on your own. If traveling by air and checking your luggage, we advise you to pack an extra set of field clothing and personal essentials in your carry-on bag in case your luggage is lost or delayed. Laundry facilities will not be available during the expedition.
